## Introducing Union Professionnelle des Experts Maritimes

In 1975 a group of Marine Surveyors got together and founded the Union Professionnelle des Experts Maritimes.

UPEM is a non-profit making organisation ruled by the French law of 1901, which brings together on a nation-wide scale, Marine Professionals whose academic qualifications, technical skill and experience allow them to practice in the surveying fields of:

- ship building & ship repair
- commercial shipping
- maritime and river transport of goods and passengers
- fishing
- yachting & pleasure craft
- river craft & navigation
- divers & underwater work
- offshore (oil, gas & new energies)
- harbour & other industrial works ...

UPEM is a member of the following French organisations:

- Institut français de la mer / **IFM**
- Cluster maritime français / **CMF**
- Fédération des industries nautiques / **FIN**
- Conseil supérieur de la météorologie / **CSM**.

UPEM also launched the Diplôme Universitaire d'Expert Maritime et Transport (DUEMT) together with the **Université** (UNLH) and the **École Nationale Supérieure Maritime (ENSM)** at **Le Havre**.

## The Surveyors of Union Professionnelle des Experts Maritimes

In accordance with their respective skills, **UPEM** Members may act:

- as conventional Surveyors in marine casualties or expert witnesses in damages;
- as Technical Consultants acting in litigation;
- as Surveyors of guaranteed work: checking production and material specification control, verification of contractual documents, risk evaluation, feasibility studies, program planning;
- as conventional Technical Consultants: laying down processes, defining and planning actions, risk evaluation, feasibility studies, program organisation.
- as Court Surveyors when agreed.

Concerned about the quality of his profession, aware of his responsibility towards those seeking his services, each Member of UPEM is committed to:

- exercise his profession with all integrity,
- avoid conflicts of interests,
- decline the tasks for which he is not competent,
- maintain the reputation of his profession and his Association,
- follow the codes of good conduct, respect the environment to the best of his ability,
- maintain honesty at all times.
